

### **PhD Scholarship Advertisement**

The Institute of Applied Statistics is proud to announce a call for full-time doctoral applicants in fields related to or reliant on statistical sciences, in any commerce, science and social sciences discipline. Please note that these scholarships will only be offered to South African citizens, and unfortunately no foreign nationals can be considered. The value of the PhD scholarships is discretionary, and may in many cases supplement doctoral funding from other sources. Preference will be given to promising graduates who are from previously disadvantaged groups or students with clear and verifiable financial needs.

This announcement is open-ended, and has no natural expiry date. Applicants are required to email or fax a CV, academic transcripts and a covering motivational letter to [applications@institute-applied-statistics.org.za](mailto:applications@institute-applied-statistics.org.za) or 086-670-5260. For more information, please visit [www.institute-applied-statistics.org.za](http://www.institute-applied-statistics.org.za)

### **Honours and Masters Scholarship Advertisement**

The Institute of Applied Statistics is very proud to announce a call for applicants for its second round of scholarships in fields related to or reliant on statistical sciences, in any commerce, science and social sciences discipline. These scholarships are non-contractual awards for both full-time Honours study, and Masters study either via dissertation or via course work, at a South African university.. Please note that these scholarships will only be offered to South African citizens, and unfortunately no foreign nationals can be considered. The value of the scholarships is discretionary. Candidates are required to have completed undergraduate courses in either mathematics or statistics. Preference will be given to students from previously disadvantaged groups and students with clear and verifiable financial needs. Nonetheless students possessed of particular talents and passion in the discipline will also be considered.

Applicants for 2012 funding are required to email or fax a CV, academic transcripts and a covering motivational letter to [applications@institute-applied-statistics.org.za](mailto:applications@institute-applied-statistics.org.za) or 086-670-5260. The deadline for submission of the documents is 9<sup>th</sup> October 2011. Short-listing of candidates will then be conducted. Masters candidates must be prepared to interview in Cape Town. Awards will be announced to successful candidates by mid-December 2011. For more information, please visit [www.institute-applied-statistics.org.za](http://www.institute-applied-statistics.org.za)

### **Statistical Support and Awareness Programme**

As part of its suite of activities, The Institute of Applied Statistics (IAS) is further committed to supporting the local South African statistical fraternity by way of bespoke requests. The Institute of Applied Statistics is very pleased to announce an open-ended call for applications from the statistical community where financial assistance is required relating to an applied statistics theme or assignment. The only criterion we note is that the direct beneficiaries of such assistance should not be individuals, but should be organizations, universities or projects in need. Initial motivational letters should be addressed to [applications@institute-applied-statistics.org.za](mailto:applications@institute-applied-statistics.org.za) or faxed to 086-670-5260. Upon receipt, IAS may request additional information. For more information, please visit [www.institute-applied-statistics.org.za](http://www.institute-applied-statistics.org.za)
